

DRIFTLESS GLEN

AN AMERICAN DISTILLERY

Navy Strength is handcrafted at our Driftless Glen distillery in Baraboo Wisconsin. Made with water that travels through the glens and dells that surround the distillery in the region that the glaciers left untouched.

Infused with traditional botanicals, the bouquet opens throughout this entire spirit with classical juniper notes - like pre-prohibition gins - and finishes with a twist of citrus.

As rations kept for the British Navy, sailors found out unique ways to test the proper alcohol content. This was done by combining gin with gun powder and igniting to ensure 114 proof.

- Size: 750 ml
- 114 Proof
- 57% ALC by Volume
