

DRIFTLESS GLEN

AN AMERICAN DISTILLERY

NEW AMERICAN

GIN

SOFT. DELICATE. COMPLEX.

New American Gin is handcrafted at our Driftless Glen distillery in Baraboo Wisconsin. Made with water from the Driftless Area, the place the glaciers left untouched.

Our interpretation of the New American is a soft, gentle and well balanced gin with a citrus profile of lemon and organic orange peel as the forward notes. This recipe was created by one of the only female distillers in Wisconsin.

Excellent with tonic or in a cocktail.

- Size: 750 ml
- 92 Proof
- 46% ALC by Volume
