

DRIFTLESS GLEN

AN AMERICAN DISTILLERY

Our Young Rye Whiskey is handcrafted using all local ingredients from the Driftless Region in Wisconsin that is home to our distillery. The region is distinctive to the rest of the world because of the combination of temperature, water and soil. This combination provides the perfect terroir harboring the grain and water necessary to make a matchless expression of our Young Rye Whiskey.

Distilled from 75% rye this whiskey is characterized with notes of white pepper spice and vanilla with hints of oak and caramel. This young rye stands up great in a cocktail and makes for a tasty Manhattan or Old Fashioned.

- Single Barrel aged in charred American Oak for 8 -20 months
- 750 ml: Bottled at Cask Strength
- Hand written labels indicate the barrel, proof, age and bottler
